

Angel Toolbar FAQs

Q1. What is a Toolbar?

Ans) The toolbar is an all in one convenience tool and with the Angel toolbar, viewing the Stock Market is just a click away. Search for any Stock Market data you require through this toolbar. You can access all the important services related to Equity, Commodities and Mutual Funds.

Q2. Can I customize the Angel toolbar?

Ans) Yes, you can easily customize your Angel toolbar after installing. Click the down arrow beside Angel Broking and select Toolbar Setting. This will open the Toolbar Option window. You can,

- change the color of the toolbar and can put up images you like from the 'Skin' tab,
- change the font type and size from the 'General' tab, and
- remove or add search buttons from the 'Buttons' tab.

Q3. How do I use the Angel Toolbar?

Ans) Just look into the user's manual of Angel toolbar to know the use.

Q4. Will the download of Angel Toolbar affect my PC?

Ans) No. The download of Angel toolbar won't harm your PC. It doesn't come with Malware or Viruses that can affect your computer.

Q5. Is there any additional feature of Angel Toolbar?

Ans) Yes. The Angel toolbar has some additional features in it. You can clear the history of the sites visited, by selecting 'Clear search history' from 'Toolbar Settings'. You get a pop-up blocker and can assign a sound or change the cursor whenever a pop-up is blocked. This feature can be accessed from 'Behavior Options' in 'Toolbar Settings'. You also have the added convenience of Google Search right there in the toolbar.

Q6. What is a 'Pop-up blocker'?

Ans) 'Pop up blocker' is used to block all the annoying pop up ads. Angel toolbar provides pop-up blocker if you download it.
